\$579 PAIR

'67 to '69 applications shown

HEIDTS PRO-G™ HIGH PERFORMANCE TALL 2" DROPPED FORGED SPINDLE

It is called a TALL Spindle because the upper ball joint is raised 1-1/2". Different from the factory design, it yields a better camber change during suspension movement. Pivot points are determined by the ball joints on the spindles and bushing locations on the frame, not the control arms. These spindles are **STEEL**, the strongest ones in the industry.

Fits: '67-'69 Camaro/Firebird, '68-'72 Nova, '64-'72 Chevelle

\$299 PAIR
